## **Independent Auditor's Report**

To the Board Members of the  
Louisiana Educational Television Authority  
Baton Rouge, Louisiana

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, and each major fund of the Louisiana Educational Television Authority, a component unit of the State of Louisiana, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Louisiana Educational Television Authority's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, including the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, and each major fund of the Louisiana Educational Television Authority, as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis at pages 4 to 11, the schedule of budgetary comparison – general fund at page 44; schedule of employer's proportionate share of the total collective OPEB liability at page 45; schedule of employer's proportionate share of net pension liability at page 46; and schedule of employer's pension contributions at page 47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary and Other Information***

Our audit was conducted for the purpose of forming an opinion on the financial statements of the Louisiana Educational Television Authority. The accompanying schedule of board members and per diem paid at page 50 and the annual fiscal report beginning at page 55, as required by the State of Louisiana, are presented for purposes of additional analysis and are not a required part of the financial statements.

The schedule of board members and per diem paid and the annual fiscal report is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

To the Board Members of the  
Louisiana Educational Television Authority  
Baton Rouge, Louisiana

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2021, on our consideration of the Louisiana Educational Television Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Louisiana Educational Television Authority's internal control over financial reporting and compliance.

## ***Management's Discussion and Analysis***

# **Louisiana Educational Television Authority**

## **Management's Discussion and Analysis**

---

### **Introduction**

The Management's Discussion and Analysis ("MD&A") of the Louisiana Educational Television Authority ("LETA") presents a narrative overview and analysis of LETA's financial activities for the year ended June 30, 2021. This section focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information.

As with other sections of this financial report, the information contained within this MD&A should be considered only a part of a greater whole. The readers of this statement should take time to read and evaluate all sections of this report, including the footnotes and the supplementary information that is provided in addition to the MD&A.

### **Financial Highlights**

The following financial highlights are derived from the financial statements included in this report and provide an overview into the financial status of LETA.

- LETA's liabilities exceeded assets at June 30, 2021 by \$20,682,150. Total assets increased by \$629,798, approximately 22%, from June 30, 2020 to June 30, 2021.
- Capital assets acquired by LETA are not included in the accompanying financial statements, since LETA acts only as a custodian of these assets and title actually rests with the State of Louisiana.
- LETA had no debt instruments (notes payables or bonds) in the current fiscal year.

In addition to the information contained in this report that directly reflects LETA's financial status, a component unit, the Foundation for Excellence in Louisiana Public Broadcasting (the "Foundation") is also shown.

- Foundation's assets exceeded liabilities at June 30, 2021 by \$53,083,737. Total assets increased by \$11,718,454 from June 30, 2020 to June 30, 2021.
- The Foundation's net results from activities increased by \$12,491,545 from June 30, 2020 to June 30, 2021.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to Authority's basic financial statements. LETA's basic financial statements consist of three components: government-wide financial statements, fund financial statements, and notes to the financial statements.

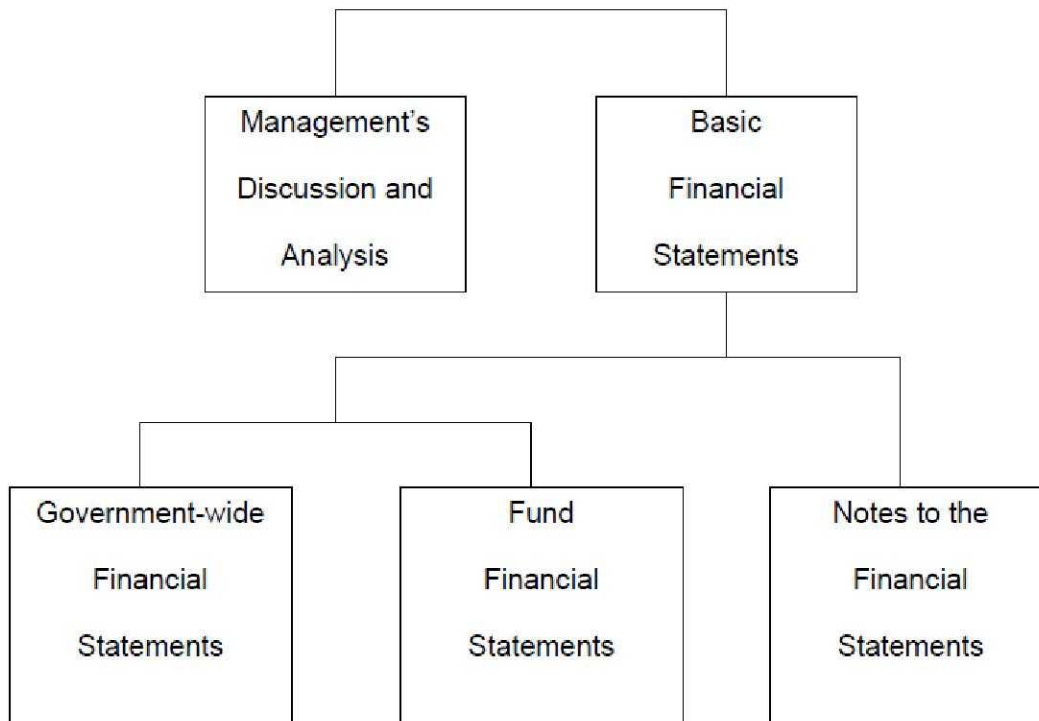

The basic financial statements present two different views of LETA through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of LETA.

## Management's Discussion and Analysis

### *Required Components of the Financial Statements*

### **Basic Financial Statements**

The first two statements in the basic financial statements are the government-wide financial statements. They provide both short and long-term information about LETA's financial status. The next statements are fund financial statements. These statements focus on the activities of the individual parts of LETA's operations and provide more detail than the government-wide statements.

The next section of the basic financial statements is the notes to financial statement. The notes to financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show greater details on LETA's operations. Budgetary information can be found in this part of the statements.

### ***Government-Wide Financial Statements***

The government-wide financial statements are designed to provide the reader with a broad overview of LETA's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about LETA's financial status as a whole.

The statement of net position presents the current and long-term portions of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. This may provide a useful indicator of whether the financial position of LETA is improving or deteriorating.

# **Louisiana Educational Television Authority**

## **Management's Discussion and Analysis**

---

The statement of activities presents information showing how LETA's net position changed as a result of current year operations. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

### ***Fund Financial Statements***

The fund financial statements provide a more detailed look at LETA's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. LETA, like all other governmental entities, uses fund accounting to ensure and reflect compliance (or noncompliance) with finance-related legal requirements, such as the General Statutes or LETA's budget requirements. LETA's fund financial statements consist of only governmental funds.

### ***Notes to Financial Statements***

The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### ***Other Information***

In addition to the basic financial statements and accompanying notes, this report includes certain required and other supplementary information as listed in the table of contents.

	<u>\$ 53,483,423</u>	<u>\$ 41,764,969</u>	<u>\$ 11,718,454</u>	28.06%

Restricted net position represents resources that are not available for spending as a result of grant or debt requirements. Conversely, unrestricted net position are resources that do not have any limitations on how these amounts may be spent.

Current assets increased by \$11,718,454 from June 30, 2020 to June 30, 2021. The primary reason for the change is an increase in investments and endowment investments.

Current liabilities decreased by \$435,075, approximately 52%, from June 30, 2020 to June 30, 2021. The primary reason for the decrease is a decrease in accounts payable related to the RePack projects.

As part of the broadcast spectrum incentive auction, the Federal Communications Commission (the "FCC") is authorized to repack the television band by assigning television stations to new channels. As part of this initiative, the Foundation is managing the updates to transmitter stations in Alexandria and Shreveport. The Foundation was reimbursed by the FCC (see note 8) for a portion of these costs which is included within grants and contributions.

Capital assets are transferred from the Foundation to LETA at year-end and reported as "financial support transferred to LETA" since all capital assets are carried by the State of Louisiana. Support paid to LETA decreased by \$685,616, approximately 28%, from June 30, 2020 to June 30, 2021 primarily from a decrease in transmitter station assets being transferred to LETA as the Repack Project nears completion.

Total investment and endowment investment returns increased by \$11,367,859 from June 30, 2020 to June 30, 2021. The primary reason for the significant increase is Foundation's investment portfolio performed better than the previous fiscal year as financial markets reached new highs.

### General Fund Budgetary Highlights

For the year ended June 30, 2021, revenues on the budgetary basis exceeded expenses by \$1,424,571. This balance consists of state supplemental funds to be carried forward to the 2022 fiscal year to cover costs associated with building and transmittal tower repairs and maintenance. For the year ended June 30, 2020, revenues on the budgetary basis exceeded expenses by \$7,303. Over the last decade, LETA has had to rely on increased entrepreneurial activities and increased support from the Foundation for revenues. In addition, LETA has continued to decrease operating expenses through performance and quality improvement efforts.

### **Factors Considered in the Development of Next Year's Budget and Goals**

LETA's officials considered the following factors and indicators when setting next year's budget, establishing fiscal year goals, and addressing other issues that will impact LETA's operations. Included among the factors considered were:

- A fundamental shift in the broadcasting environment requiring new digital distributions.
- A net decrease in LETA's state general fund appropriation over the last 10 year period.
- An increase in LETA's self-generated and IAT revenue budget appropriation with continued reliance on production projects for basic state operating budget.
- LETA's dedicated staff continues to shoulder increasing responsibilities as the staff has been reduced by 36.1% over the past 10 years – from 83 employees in fiscal year 2011 to the current staff of 53.
- Continued partnership with the Office of the Secretary of State to expand the Louisiana Digital Media Archive, a library of Louisiana's historical media collection.
- Continued work with the Louisiana Department of Transportation's Storm Water Campaign to educate the public about ways to protect our environment.
- Continued commitment to LETA's educational initiatives through an increased number of partnerships with Louisiana Department of Education and other statewide and local community entities.
- Continued partnership with the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP) to enhance GOHSEP's education and training programs and to expand community outreach and public awareness related to hurricane preparedness and other emergency situations.

### **1. History and Summary of Significant Accounting Policies**

#### ***Organization***

The Louisiana Educational Television Authority ("LETA") is a political subdivision of the State of Louisiana's executive branch. LETA is supervised by its members as provided in Louisiana Revised Statutes 17:2503.C. LETA is charged statutorily with making the benefits of educational and public television available to and promoting their use by citizens of Louisiana. LETA's operations are funded through an annual lapsing legislative appropriation. In addition, LETA has received funds from the State of Louisiana for the purpose of constructing transmitter and tower facilities throughout the State. Amounts included within LETA's foregoing financial statements are also included in the State of Louisiana's comprehensive annual financial report.

The Foundation for Excellence in Louisiana Public Broadcasting (the "Foundation") was established August 7, 1992 as a nonprofit Louisiana Corporation. It was organized to direct all of its efforts to the support of the LETA. The Foundation provides for an endowment to support public television in the State of Louisiana and may serve as a "repository" for funds to be utilized for the promotion, development, enhancement and assistance of public television in Louisiana. Furthermore, the Foundation operates under the authority of its Board of Directors. A majority of the Directors are nominated and appointed by the non-LETA Directors and a minority of the Directors are nominated by LETA's board.

#### ***Financial Reporting Entity***

Based upon the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 61 (GASB 61), *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and 34*, LETA is considered a component unit of the State of Louisiana because the state exercises oversight responsibility in that the governor appoints the board members, public service is rendered within the state's boundaries, and LETA receives a substantial portion of its funding from the state. The accompanying financial statements present information only as to the transactions of LETA as authorized by Louisiana statutes and administrative regulations. Annually, the State of Louisiana issues a basic financial statement which includes the activity contained in the accompanying financial statement. The basic financial statement is issued by the Louisiana Division of Administration – Office of Statewide Reporting and Accounting Policy ("OSRAP") and audited by the Louisiana Legislative Auditor.

Based upon an assessment by OSRAP, the Foundation is included as a component unit of LETA. LETA is able to impose its will on the Foundation and the Foundation provides specific financial benefits to, and may impose specific financial burdens on, LETA. In addition, OSRAP has determined that exclusion of the Foundation from the financial reporting entity would render LETA's financial statements to be misleading or incomplete. Therefore, LETA's financial statements present the operations of the Foundation as a discretely presented component unit.

The Foundation is a private nonprofit organization that reports under the Financial Accounting Standards Board ("FASB"), including FASB Accounting Standards Codification 958, *Not-for-Profit Entities*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. Nevertheless, the Foundation follows LETA's - the primary government - financial reporting framework within these financial statements. Therefore, modifications have been made to the Foundation's financial information for these differences. The Foundation's audited financial statements can be obtained from LETA's management.

## Notes to Financial Statements

---

### *Financial Statement Presentation*

LETA's financial statements include both government-wide and fund financial statements which categorize all of LETA's activities as governmental.

- **Government-Wide Financial Statements:**

In the government-wide statement of net position, the governmental activity column is presented on a consolidated basis by column and is reported on a full accrual, economic resource basis. This basis recognizes all long-term assets and receivables as well as long-term debt and obligations. LETA's net assets are reported in two parts – restricted and expendable for capital projects and unrestricted.

In addition, the government-wide statement of activities reports both the gross and net cost of each of LETA's functions. The functions are also supported by general government revenues; such as: appropriations from the State of Louisiana, earnings on the capital projects cash account, and support transferred from the Foundation. The statement of activities reduces gross expenses by related program revenues and grants. Program revenues must be directly associated with the function. Grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital specific grants. The net costs (by function) are normally covered by general revenues. LETA does not allocate indirect costs. This government-wide focus is more on the sustainability of LETA as an entity and the change in LETA's net assets resulting from the current year's activities.

- **Net Position:**

The statement of net position reports net position as the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position is displayed in three components:

- o Net investment in capital assets - consists of capital assets including restricted capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- o Restricted - consists of amounts with constraints placed on the use by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- o Unrestricted - all other amounts that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is LETA's policy to use the restricted resources first, then unrestricted resources as needed.

- **Fund Financial Statements:**

The financial transactions of LETA are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

# **Louisiana Educational Television Authority**

## **Notes to Financial Statements**

---

All of LETA's funds are reported as governmental funds. The focus of the governmental funds measurement – in the fund financial statements – is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of LETA:

- o The general fund is the general operating fund of LETA. It is used to account for the legislative appropriations provided to fund the general operating expenses of LETA and those other expenses not funded through other specific legislative appropriations of revenues.
- o The capital projects fund is used to account for specific legislative appropriations and state general obligation bond revenues used for the construction of transmitter and tower facilities and for the conversion to digital transmission of LETA's network.

- **Fund Balance:**

In fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy primarily on the extent to which LETA is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in the following five components:

- o **Nonspendable** - This component consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- o **Restricted** - This component consists of amounts that have constraints placed on them either externally by third-parties (creditors, grantors, contributions, or laws or regulations of other governments) or by law, through constitutional provisions or enabling legislation. Enabling legislation authorizes LETA to assess, levy, change or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement (compelled by external parties) that those resources be used only for the specific purposes stipulated in the legislation.
- o **Committed** - This component consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of LETA. Those committed amounts cannot be used for any other purpose unless LETA removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed previously to commit those amounts.
- o **Assigned** - This component consists of amounts that are constrained by LETA's intent to be used for specific purposes, but are neither restricted nor committed. The authority for assigning fund balance is expressed by LETA or the designee as established in LETA's fund balance policy.
- o **Unassigned** - This component consists of amounts that have not been restricted, committed or assigned to specific purposes within the general fund. When both restricted and unrestricted resources are available for use, it is LETA's policy to use restricted resources first, then unrestricted resources (committed, assigned and unassigned) are available for use.

It is LETA's policy to use restricted resources first, assigned, and then unassigned as they are needed.

### ***Basis of Accounting and Measurement Focus***

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

---

# **Louisiana Educational Television Authority**

## **Notes to Financial Statements**

---

- **Accrual**  
Governmental-type activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.
- **Modified Accrual**  
The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means that the amount of the transaction can be determined, and "available" means that the amount of the transaction is collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A one-year availability period is used for revenue recognition for all governmental fund type revenues. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due.

### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and revenues and expenses reported during the period. Actual results could differ from those estimates.

### ***Budgets and Budgetary Accounting***

LETA's budgetary process incorporates a yearly appropriation process, which is valid for a period of one year. Louisiana statute provides for an extension period of 45 days in order to liquidate encumbrances established prior to June 30. Budget revisions are allowed and implemented by budgetary amendment with approval of the Legislative Budget Committee and by interim emergency appropriations granted by the Interim Emergency Board. The budgetary information presented in the financial statements represented the last approved budgetary revisions enacted as reflected by the last approved budgetary amendment.

This budgetary information was adjusted for prepaid lease expense, general fund transfers between the General Fund and the Capital Outlay Fund, and in-kind contributions since LETA does not budget for these transactions. In addition, this budgetary information was adjusted for encumbrances outstanding at year end, and for other miscellaneous adjustments which were in the original budget but not recorded in the financial statements.

Budgetary data for the Capital Project Funds has not been presented in the accompanying financial statements as such funds are budgeted over the life of the respective project and not on an annual basis.

### ***Functional Allocation of Expenses***

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

# **Louisiana Educational Television Authority**

## **Notes to Financial Statements**

---

### ***Encumbrances***

Encumbrances representing purchase orders, contracts or other commitments are recorded in budgetary funds to reserve portions of applicable appropriations. Encumbrances are part of the budgetary process and are included in actual expenditures when a comparison with budget is necessary. Encumbrances at year-end are not considered expenditures in the financial statements presented on the GAAP basis.

### ***Cash and Cash Equivalents***

For financial statement purposes, cash includes demand deposits and cash equivalents include amounts in money market funds. All highly liquid investments with an original maturity of three months or less are considered cash equivalents.

### ***Petty Cash Fund***

LETA maintains a permanent travel and petty cash fund in the amount of \$3,500 as authorized by the Commissioner of Administration in accordance with State law. The funds are permanently established and periodically replenished from LETA's operating fund when expenditure vouchers are presented.

### ***Investments***

Investments are carried at fair value. Purchases and sales of securities are recorded on trade dates, and realized gains and losses are determined on the basis of average cost of securities sold. Investment return includes interest, dividends, administrative fees, and realized and unrealized gains and losses, and is included in the statement of activities as increases or decreases in unrestricted net assets.

The Foundation invests in alternative investments consisting of managed futures, commodities, private equity, private real estate, and other non-traditional investments. These investments utilize a variety of instrument strategies incorporating marketable securities and, in some cases, derivative instruments, all of which are reported at fair value by the fund managers.

Distributions of alternative investments are recognized as income to the extent of the Foundation's share of undistributed income of such investments; distributions in excess of the amount recognized as income are recorded as a reduction of investment cost. Investments considered to be permanently impaired in value are written down to their estimated net realizable value and the write down is recorded as a realized loss on investments.

### ***Accounts Receivable***

Accounts receivable consists primarily of amounts owed by customers for educational, productions, and uplink services provided. Management periodically reviews the status of all accounts receivable balances for collectability. Each receivable balance is assessed based on management's knowledge of the customer, the relationship with the customer, and the age of the receivable balance. As a result of these reviews, customer balances deemed to be uncollectible are charged to the allowance for doubtful accounts. Management has determined that the accounts receivable balance to be collectible and an allowance for doubtful accounts is considered unnecessary.

# **Louisiana Educational Television Authority**

## **Notes to Financial Statements**

---

### ***Cost of Programs Not Yet Broadcast***

Costs the Foundation incurs for programs not yet broadcast are reported as prepaid expenses. Such costs relate to program rights purchased by the Foundation that will be broadcast subsequent to June 30. Programs broadcasted within one year are classified as current assets whereas programs to be broadcasted in more than one year are classified as long-term. At June 30, 2021, there were no long-term costs incurred for programs not yet broadcast. As the programs are broadcast, the costs incurred will be included in operating expenses. Program status is evaluated annually. Costs associated with programs not considered to have future benefit are adjusted to net realizable value.

### ***Capital assets***

Capital assets acquired by LETA are reported as broadcasting expenses and are not capitalized in the accompanying financial statements. Capital assets are reported in the State of Louisiana's comprehensive annual financial report. LETA acts only as a custodian of these assets and title actually rests with the State of Louisiana.

The Foundation's equipment is stated at cost less accumulated depreciation and is depreciated using the straight-line method over the estimated useful life. Expenditures for repairs and maintenance are charged to operating expense as incurred.

### ***Accrued Compensated Absences***

Employees of LETA, both classified and unclassified, earn annual and sick leave at various rates depending on the number of years of service. There is no limit on the amount of annual or sick leave that can be accumulated. LETA is legally liable to compensate an employee upon retirement or termination for up to 300 hours of unused annual leave. Upon retirement, the number of hours of unused annual leave in excess of 300 hours plus the number of hours of unused sick leave is computed into years or fraction of years and is added to the number of years of service earned by the retiree. The unused annual and sick leave is counted towards the number of years serviced only for computing the rate of retirement pay due the retiree and does not count toward the number of years necessary for retirement. The liability for unused annual leave payable at June 30, 2021 is \$484,395.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as an expense and a liability in the financial statements in the period in which the leave is earned. The compensated absences liability is reported as a long-term liability with the portion expected to be paid within one year reported as a current liability and an expense allocated on a functional basis. The accrued compensated absences balance is not reported in the governmental fund-type financial statements at June 30, 2021 and represents a reconciling item between the fund and government-wide presentation.

### ***Pensions***

For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# **Louisiana Educational Television Authority**

## **Notes to Financial Statements**

---

### ***Post-Employment Health Care and Life Insurance Benefits***

LETA provides certain continuing health care and life insurance benefits for its retired employees. LETA recognizes the expense of providing these retiree benefits in accordance with GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

### ***Deferred Outflows of Resources***

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This balance represents a consumption of net position that applies to a future period(s) and is not recognized as an outflow of resources (expenses) until then. LETA has the following items that qualify for reporting in this category:

Pension plan – these deferred outflows result from pension contributions after the measurement date (deferred and recognized in the following fiscal year) and changes in assumptions, differences in projected and actual earnings on pension assets, and changes in proportion and differences between employer contributions and proportionate share of contributions (deferred and amortized over a closed five year period).

OPEB plan – these deferred outflows result from OPEB contributions after the measurement date (deferred and recognized in the following fiscal year).

### ***Deferred Inflows of Resources***

Deferred inflows of resources are acquisitions of net position by LETA that is applicable to a future reporting period and so will not be recognized as an inflow of resources until then. LETA has the following items that qualify for reporting in this category:

Pension plan – these deferred inflows result from differences between expected and actual experience and changes in proportion and differences between employer contributions and proportionate share of contributions (deferred and amortized over a closed five year period).

OPEB plan – these deferred inflows result from changes in assumptions and changes in proportion and differences between employer contributions and proportionate share of contributions (deferred and amortized over a closed five year period).

### ***Grants and Contributions***

Grants and contributions restricted to support such programs are included in deferred revenue if the donor requires commensurate value in return for their support. In such cases, the costs incurred will be reported as expenses and the deferred revenue will be recognized as revenue when the programs are initially broadcast. If the donor's support is nonreciprocal in nature, the grants and contributions are included as revenue. Grants and contributions with time and/or compliance stipulations are recognized as deferred inflows of resources. Once those stipulations are met, the grants and contributions are recognized as revenues.

### ***Underwriting Contributions***

The Foundation records revenue from program underwriting on a pro rata basis for the period covered, and for production underwriting on an estimated percentage-of-completion basis.

# **Louisiana Educational Television Authority**

## **Notes to Financial Statements**

---

### ***Lease Revenue***

LETA and the Foundation entered into contracts with Nextel Spectrum Acquisition Corporation (Sprint Nextel) and Clearwire Corporation (Clearwire), in accordance with Federal Communications Commission (FCC) rules, to lease excess capacity on it EBS frequencies. Under the terms of the contracts, LETA and the Foundation remain the licensee on the EBS frequencies and have responsibility for compliance with all educational and other requirements imposed by the FCC. LETA and the Foundation receive monthly and anniversary payments which are recognized as revenues when earned. LETA and the Foundation's lease revenues from EBS frequencies totaled \$213,756 and \$85,848, respectively, for the year ended June 30, 2021.

### ***Production Revenue and Expense***

The Foundation uses the percentage-of-completion method of accounting for production revenue, whereby the cumulative production revenue earned equals the ratio of costs incurred to the estimated total costs at completion applied to the total committed revenues from outside sponsors. Production costs include charges by subcontractors plus all direct labor and other direct costs. Indirect and general and administrative expenses are charged to expense as incurred.

Cost estimates on programs are reviewed periodically as the work progresses and adjustments, if needed, are reflected in the period in which the estimates are revised.

### ***Advertising Costs***

Advertising costs are expensed as incurred. Advertising expense for the Foundation was \$23,316 for the year ended June 30, 2021.

### ***Income Taxes***

The Foundation has been recognized by the Internal Revenue Service as an organization exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in these financial statements. With few exceptions, the Foundation is no longer subject to federal or state examinations by tax authorities for the years before 2018.

The Foundation follows the provisions of the *Accounting for Uncertainty in Income Taxes* topic of the FASB Codification, which clarifies the accounting and recognition for income tax positions taken or expected to be taken in the Foundation's information tax returns. Accounting principles generally accepted in the United States of America provide accounting and disclosure guidance about positions taken by an entity in its tax returns that might be uncertain. Under this guidance, the Foundation may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. There were no unrecognized tax benefits or obligations identified or recorded for the year ended June 30, 2021.

## Notes to Financial Statements

### *New Accounting Pronouncements*

The GASB has issued the following Statements which will become effective in future years as shown below:

Statement No. 87, "*Leases*" increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement have been postponed by 18 months until reporting period beginning after June 15, 2021.

## 2. Deposits

All monies of LETA are deposited with the Louisiana Department of Treasury which is responsible for maintaining these deposits in accordance with Louisiana State Law. Consequently, management of LETA does not have any control over the cash balances. Deposits consist of the following at June 30, 2021:

	Cash	Money Market	Total
Deposits per statement of net position (reconciled bank balance)	\$ 3,244,486	\$ -	\$ 3,244,486
Deposits held by Louisiana Treasury	\$ 3,240,986	\$ -	\$ 3,240,986

### ***Custodial Deposit Risk***

The Louisiana Department of Treasury is responsible for maintaining the cash balances and securing such balances from risk through custodial agreements. The risk disclosures required by accounting principles generally accepted in the United States are included with the State of Louisiana's Comprehensive Annual Financial Report.

In the normal course of operations, the Foundation maintains cash deposits with major financial institutions which, from time to time, may exceed federally insured limits. Management periodically assesses the financial condition of the institutions and believes the risk of incurring material losses related to this credit risk is remote.

### **3. Investments**

The Foundation's investments are measured at fair value and are comprised of the following at June 30, 2021:

Money market	\$ 275,187
Government and agency securities	641,114
Corporate fixed income securities	296,182
Common and preferred stocks	7,664,003
Mutual funds	13,242,741
Exchange traded and closed end funds	11,619,642
Alternative investments	10,448,257
Pooled investments held by the Baton Rouge Area Foundation on behalf of the Foundation	818,788
	<u>\$ 45,005,914</u>

The following schedule summarizes the Foundation's investment return, including interest and administrative fees, and its classification in the financial statements for the year ended June 30, 2021:

Realized gains	\$ 1,319,945
Unrealized gains	8,098,394
Interest and dividend income	1,020,902
Investment fees	(145,357)
	<u>\$ 10,293,884</u>

### ***Custodial Credit Risk***

The risk that in the event of the failure of the counterparty to a transaction the Foundation will not be able to recover the value of investments that are in the possession of an outside party. At June 30, 2021, the Foundation's investments in common and preferred stocks and alternative investments are uninsured on the performance of the custodian and are exposed to custodial credit risk because they are held by the counterparty, but not in the Foundation's name. The Foundation's investments in mutual funds, money market funds, and external investment pools are not susceptible to custodial credit risk because its existence is not evidenced by securities that exist in physical or book entry form.

## Notes to Financial Statements

---

### ***Interest Rate Risk***

The risk that changes in interest rates will adversely affect the fair value of investments. Also, investments can be highly sensitive to changes in interest rates due to their terms or characteristics. At June 30, 2021, the Foundation invested \$641,114 in government and government agency securities and \$296,182 in corporate fixed income securities which mature in one to five years.

### ***Credit Risk***

The risk that the issuer or counterparty will not meet its obligations. This credit risk is measured by the credit quality ratings of investments in debt securities as described by nationally recognized statistical rating organizations (rating agencies) such as Standard & Poor's (S&P) and Moody's. The Foundation limits its investment in bonds to those classified as investment grade by S&P (BBB or better) and Moody's (Baa or better). Investments in commercial paper must have a rating of not less than A-1 by S&P and P-1 by Moody's.

### ***Concentration of Credit Risk***

The risk of loss that may occur due to the amount of investment in a single issuer. The Foundation's investment policy establishes a target asset mix which is meant to diversify the portfolio and pose a lower risk that a concentration may exist.

## **4. Board Designated Endowment**

The Foundation's Board of Directors has designated 12% of total investments as a general endowment fund to support the mission of the Foundation. Since the endowment resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted.

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while maintaining the purchasing power of the endowment assets. To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

Accordingly, over the long term, the Foundation expects the current spending policies to allow its endowment to grow annually. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return. The following schedule summarizes the changes in the Foundation's endowment net assets for the year ended June 30, 2021:

Beginning balance	\$ 4,733,460
Purchases of investments	1,077,061
Sales of investments	(957,670)
Realized gains on sales of investments	179,992
Unrealized gains on investments	1,104,327
Ending balance	<u><u>\$ 6,137,170</u></u>

The Foundation's board designated endowment was comprised of the following at June 30, 2021:

Money market	\$ 37,526
Government and agency securities	87,425
Corporate fixed income securities	40,388
Common and preferred stocks	1,045,091
Mutual funds	1,805,828
Exchange traded and closed end funds	1,584,497
Alternative investments	1,424,762
Pooled investments held by the Baton Rouge Area Foundation on behalf of the Foundation	<u>111,653</u>
	<u>\$ 6,137,170</u>

The following schedule summarizes endowment investment return(loss), including interest and administrative fees, and its classification in the financial statements for the year ended June 30, 2021:

Realized gains	\$ 179,992
Unrealized gains	1,104,327
Interest and dividend income	139,214
Investment fees	<u>(19,821)</u>
	<u>\$ 1,403,712</u>

The investments note disclosure for custodial credit risk, interest rate risk, credit risk, and concentration of credit risk at Note 3 also applies to the investments held as endowment net assets.

## 5. Fair Value Measurements

The Foundation has categorized its applicable financial instruments into a required fair value hierarchy. The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value which are as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.
- Level 2 inputs to the valuations methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs reflect the Foundation's own assumptions about the inputs market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances and may include the Foundation's own data.

# Louisiana Educational Television Authority

## Notes to Financial Statements

The Foundation uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. When available, valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market funds and investments in common and preferred and mutual funds are valued at the quoted market prices in the active market on which the individual securities are traded.

The investments in the BRAF pool represent various specific investments and various pools of funds held by BRAF for the benefit of the Foundation and other non-profit organizations. These funds are measured on a recurring basis through estimates and assumptions made by the Baton Rouge Area Foundation. All of the Foundation's pooled investments held by the Baton Rouge Area Foundation are considered level 2 investments.

The following table sets forth by level the Foundation's assets at fair value as of June 30, 2021:

	Level 1	Level 2	Level 3	Total

### 8. Commitments

#### *Louisiana Educational Television Authority*

LETA leases multiple tower sites and satellite space to broadcast programs under non-cancelable lease agreements. LETA's aggregate remaining minimum rental commitments under these leases are summarized as follows:

Year Ending June 30:	Amount
2022	\$ 169,820
2023	35,060
2024	22,700
2025	1,000
2026	250
	<u>\$ 228,830</u>

Rental expense for the year ended June 30, 2021 was \$135,572 and is included in broadcasting expenses in the accompanying financial statements.

#### *Foundation for Excellence in Louisiana Public Broadcasting*

The Foundation was committed to construction and engineering contracts during 2021. The significant commitments are as follows:

	Estimated Cost	Costs Incurred to Date	Reimbursement Requested
Television Repack Project - KLTS	\$ 3,590,789	\$ 3,651,753	\$ 3,651,441
Television Repack Project - KLPA	3,100,250	1,864,067	1,794,336
	<u>\$ 6,691,039</u>	<u>\$ 5,515,820</u>	<u>\$ 5,445,777</u>

As part of the broadcast spectrum incentive auction, the Federal Communications Commission (the "FCC") is authorized to repack the television band by assigning television stations to new channels. Nearly 1,000 stations will be moved to new channels including the Foundation. As part of the move to new channels, the Foundation must update existing broadcasting equipment located in Alexandria and Shreveport.

The Spectrum Act (the "Act") provides \$1.75 billion to be expended for reimbursement payments to involuntarily repacked broadcasters. The Spectrum Act requires that the FCC "reimburse costs reasonably incurred by" broadcast television licensees that are reassigned to new channels that incur costs related to continuing to carry the signals of broadcast stations moving to a new channel.

## Notes to Financial Statements

---

The FCC will reimburse broadcasters by providing initial allocations of funds based on their estimated costs and the amount of funds available followed by one or more additional allocations, to the extent necessary, prior to the end of the three-year reimbursement period. Subject to fund availability constraints, the FCC will issue broadcasters initial allocations equivalent to up to 90% of their estimated costs eligible for reimbursement. Funding received is not susceptible to an audit under Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); however, the FCC conducts audits of fund recipients.

### 9. Other Postemployment Health and Life Insurance Benefits

#### *Plan Description*

The Office of Group Benefits (“OGB”) administers the State of Louisiana’s post-retirement benefits plan – a defined benefit, multiple-employer other postemployment benefit plan (“OPEB”). OPEB provides medical, prescription drug, and life insurance benefits to retirees, disabled retirees, and their eligible beneficiaries through premium subsidies. Current employees, who participate in an OGB health plan, while active, are eligible for plan benefits if they are enrolled in the OGB health plan immediately before the date of retirement and retire under one of the state sponsored retirement systems (Louisiana State Employees’ Retirement System, Teachers’ Retirement System of Louisiana, Louisiana School Employees’ Retirement System, or Louisiana State Police Retirement System,) or they retire from a participating employer that meets the qualifications in the Louisiana Administrative Code 32:3.303. Benefit provisions are established under R.S. 42:851 for health insurance benefits and R.S. 42:821 for life insurance benefits. The obligations of the plan members, employer(s), and other contributing entities to contribute to the plan are established or may be amended under the authority of R.S. 42:802. There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2021. The plan is funded on a “pay-as-you-go basis” under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

Employer contributions are based on plan premiums and the employer contribution percentage. Premium amounts vary depending on the health plan selected and if the retired member has Medicare coverage. OGB offers retirees four self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare Part A and Part B coverage also have access to four fully insured Medicare Advantage plans.

The employer contribution percentage is based on the date of participation in an OGB plan and employee years of service at retirement. Employees who begin participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65, who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer and retiree is based on the following schedule:

# Louisiana Educational Television Authority

## Notes to Financial Statements

---

Service	Employer Percentage	Employee Percentage
Under 10 years	19%	81%
10-14 years	38%	62%
15-19 years	56%	44%
20+ years	75%	25%

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retirees and spouses of retirees subject to maximum values. Employers pay approximately 50% of monthly premiums for individual retirees. The retiree is responsible for 100% of the premium for dependents. Effective January 1, 2018, the total monthly premium for retirees varies according to age group.

### ***Total Collective OPEB Liability and Changes in Total Collective OPEB Liability***

At June 30, 2021, LETA reported a liability of \$10,614,193 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2020, and was determined by an actuarial valuation as of that date.

LETA's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At the July 1, 2020, LETA's proportion was 0.1281%, an increase of 0.0026%.

The total collective OPEB liability in the July 1, 2020 actuarial valuation was determined using the following actuarial methods, assumptions, and other inputs applied to all periods included in the measurement, unless otherwise specified:

- Actuarial cost method – entry age normal, level percentage of pay
- Estimated Remaining Service Lives – 4.5 years
- Salary increase rate – consistent with the State of Louisiana's pension plan
- Discount rate – 2.66% based on the June 30, 2020 Standard & Poor's 20-year municipal bond index rate
- Mortality rates – For active lives: the RP-2014 Blue Collar Employee Table, adjusted by 0.978 for males and 1.144 for females, and then projected on a fully generational basis by Mortality Improvement Scale MP-2018. For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018. For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement.
- Healthcare cost trend rates – 6.75% for pre-Medicare eligible employees grading down by 0.25% each year, beginning in 2021-2022, to an ultimate rate of 4.5% in 2030; 5.25% for post-Medicare eligible employees grading down by 0.25% each year, beginning in 2021-2022, to an ultimate rate of

# Louisiana Educational Television Authority

## Notes to Financial Statements

4.5% in 2023-2024 and thereafter; the initial trend was developed using the National Health Care Trend Survey; the ultimate trend was developed using a building block approach which considers the Consumer Price Index, gross domestic product, and technology growth.

- Retirement – the rates of retirement are consistent with the assumptions used in the June 30, 2020 pension valuations. The retirement rates for LASERS include DROP rates.

### ***Sensitivity of the Proportionate Share of the Total Collective OPEB Liability to Changes in the Discount Rate***

The following presents LETA's proportionate share of the total collective OPEB liability using the current discount rate as well as what LETA's proportionate share of the total collective OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

	1.0% Decrease (1.66%)	Current Discount Rate (2.66%)	1.0% Increase (3.66%)
Proportionate share of total collective OPEB liability	\$ 12,284,339	\$ 10,614,193	\$ 9,272,580

### ***Sensitivity of the Proportionate Share of the Total Collective OPEB Liability to Changes in the Healthcare Cost Trend Rates***

The following presents LETA's proportionate share of the total collective OPEB liability using the current healthcare cost trend rates as well as what LETA's proportionate share of the total collective OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage-point lower or one percentage-point higher than the current rates:

	1.0% Decrease (5.75%)	Current Cost Trend Rate (6.75%)	1.0% Increase (7.75%)
Proportionate share of total collective OPEB liability	\$ 9,280,768	\$ 10,614,193	\$ 12,274,289

### ***OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

For the year ended June 30, 2021, LETA recognized OPEB expense of \$92,114. At June 30, 2021, LETA reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

# Louisiana Educational Television Authority

	<u>\$ (515,976)</u>

### *Payables to the OPEB Plan*

At June 30, 2021, LETA report \$35,686 of employer contributions due to the plan.

## 10. Pension Liability

### *Plan Description*

LETA is a participating employer in a statewide, public employee retirement system, the Louisiana State Employees' Retirement System ("LASERS"). LASERS has a separate board of trustees and administers a cost-sharing, multiple-employer defined benefit pension plan, including classes of employees with different benefits and contribution rates ("subplans"). Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of all subplans administered by LASERS to the State Legislature. LASERS issues a public report that includes financial statements and required supplementary information, and a copy of the report may be obtained at [www.lasersonline.org](http://www.lasersonline.org).

## **Notes to Financial Statements**

---

### ***Plan Description and Benefits Provided***

LASERS administers a plan to provide retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in R.S. 11:411-414. The age and years of creditable service ("service") required in order for a member to receive retirement benefits are established by R.S. 11:441 and vary depending on the member's hire date, employer and job classification. Act 992 of the 2010 Regular Legislative Session closed existing sub-plans for members hired before January 1, 2011, and created new subplans for regular members, hazardous duty members, and judges. The substantial majority of members may retire with full benefits at any age upon completing 30 years of service and at age 60 upon completing 5-10 years of service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit. Eligibility for retirement benefits and the computation of retirement benefits are provided for in R.S. 11:444.

The basic annual retirement benefit for members is equal to a percentage (between 2.5% and 3.5%) of average compensation multiplied by the number of years of service, generally not to exceed 100% of average compensation. Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006, or highest 60 consecutive months of employment for members employed after that date. A member leaving service before attaining minimum retirement but after completing certain minimum service requirements, generally 10 years, becomes eligible for a benefit provided the member lives to the minimum service retirement age and does not withdraw the accumulated contributions.

Eligibility requirements and benefit computations for disability benefits are provided for in R.S. 11:461. All members with 10 or more years of service or members aged 60 or older regardless of date of hire who become disabled may receive a maximum disability benefit equivalent to the regular retirement formula without reduction by reason of age. Hazardous duty personnel who become disabled in the line of duty will receive a disability benefit equal to 75% of final average compensation.

Provisions for survivor benefits are provided for in R.S. 11:471-478. Under these statutes, the deceased member who was in state service at the time of death must have a minimum of five years of service, at least two of which were earned immediately prior to death, or who has a minimum of 20 years of service regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18 or age 23 if the child remains a full-time student. The minimum service requirement is 10 years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

LASERS has established a Deferred Retirement Option Plan (DROP). When members enter DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period up to three years. The election is irrevocable once participation begins. During participation, benefits otherwise payable are fixed and deposited in an individual DROP account. Upon leaving DROP, members must choose among available alternatives for the distribution of benefits that have accumulated in their DROP accounts.

### ***Cost of Living Adjustments***

As fully described in Title 11 of the Louisiana Revised Statutes, LASERS allows for the payment of cost of living adjustments, or COLAs, that are funded through investment earnings when recommended by LETA of trustees and approved by the Legislature. These ad hoc COLAs are not considered to be substantively automatic.

# Louisiana Educational Television Authority

## Notes to Financial Statements

### **Contributions**

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee.

Employer contributions to LASERS for the fiscal year ended June 30, 2021 were \$1,280,695 and reported within the balance of deferred outflows of resources – pension plan in the statement of net position. For the fiscal year ended June 30, 2021, active member contributions ranged from 7.5% to 8%, and employer contributions were 40.10%. For the fiscal year ended June 30, 2020, active member contributions ranged from 7.5% to 8%, and employer contributions were 40.70%.

### **Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2021, LETA reported a liability of \$12,707,468 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. LETA's proportion of the net pension liability was based on a projection of LETA's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, LETA's proportion was 0.15365%, which was a decrease of 0.01026% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, LETA's recognized pension expense was \$1,204,198. At June 30, 2021, LETA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 122,038
Changes of assumptions	40,660	-

### *Actuarial Assumptions*

A summary of the actuarial methods and assumptions used in determining the total pension liability are as follows:

Valuation date	June 30, 2020
Actuarial cost method	Entry age normal cost
Estimated remaining service life ("ERSL")	2 years
Investment rate of return	7.55% per annum
Inflation rate	2.3%
Salary increases, including inflation and merit increases	3.0% to 12.8%, including inflation
Cost of living adjustments	Not substantively automatic
Mortality rate	
Non-disabled members	Mortality rates based on the RP-2014 Healthy Mortality Table using MP-2018 Improvement Scale
Disabled members	Mortality rates based on the RP-2000 Disabled Retiree Mortality Table
Termination, disability, and retirement	Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of the System's members

## Notes to Financial Statements

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The target allocation and best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 are summarized in the following table:

Asset Class	Long-Term Expected Real Rate of Return*
Cash	-0.59%
Domestic equity	4.79%
International equity	5.83%
Domestic fixed income	1.76%
International fixed income	3.98%
Alternative investments	6.69%
Risk parity	4.20%
Total fund	5.81%

### ***Discount Rate***

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### ***Sensitivity of the Employer's Share of the Net Pension Liability to Changes in the Discount Rate***

The following presents the Employer's proportionate share of the net pension liability using the discount rate of 7.55%, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.55%) or one percentage-point higher (8.55%) than the current rate:

	1.0% Decrease (6.55%)	Current Discount Rate (7.55%)	1.0% Increase (8.55%)
Employer's proportionate share of the net pension liability	<u>\$ 15,615,501</u>	<u>\$ 12,707,468</u>	<u>\$ 10,239,681</u>

### ***Pension Plan Fiduciary Net Position***

Detailed information about the pension plan's fiduciary net position is available in the separately issued LASERS 2020 Comprehensive Annual Financial Report at [www.lasersonline.org](http://www.lasersonline.org).

### ***Payables to the Pension Plan***

At June 30, 2021, LETA had no payables due to LASERS for the employee and employer legally-required contributions.

## **11. Related Party Transactions**

An agreement was entered into between the Foundation, the component unit, and the related party Friends of Louisiana Public Broadcasting. Under the terms of this agreement, Friends of Louisiana Public Broadcasting transfers funds in excess of calculated amounts to the Foundation to be used to pay for approved expenses. For the year ended June 30, 2021, Friends of Louisiana Public Broadcasting transferred \$1,686,380 to the Foundation with \$612,532 of that amount reported as a related party receivable.

The Foundation, the component unit, was organized to support LETA, the primary government. For the year ended June 30, 2021, the Foundation provided financial support to LETA totaling \$1,742,171, with \$211,068 of that amount reported as a receivable by LETA and a payable by the Foundation.

Employees of LETA perform services for the Foundation for productions, programming, broadcasting, and administrative services. In return, the Foundation reimburses LETA for the services performed by those personnel. These transactions are recorded as a reduction in salaries and related benefits in LETA's accounting records and as personnel expenses in the Foundation's accounting records. For the year ended June 30, 2021, the Foundation reimbursed LETA \$374,537 for personnel expenses.

When necessary, the Foundation pays invoices on behalf of LETA when LETA does not have the funds available. The Foundation reported \$26,101 due from LETA at June 30, 2021 for invoices paid on LETA's behalf.

The Foundation and Friends of Louisiana Public Broadcasting rent office space from LETA on a monthly basis. Rental revenue from the Foundation and Friends of Louisiana Public Broadcasting was \$8,292 and \$30,377, respectively, for the year ended June 30, 2021.

The Foundation reimburses LETA for the use of LETA's production, programming, and broadcasting equipment. For the year ended June 30, 2021, the Foundation's equipment rental expense was \$68,023. This balance is reported as rental revenue by LETA.

## **Notes to Financial Statements**

---

### **12. Contingency**

LETA and the Foundation participate in a number of federal and state programs. These programs require LETA and the Foundation to comply with certain requirements of laws, regulations, contracts, and agreements applicable to the programs in which it participates. All funds expended in connection with government grants and contracts are subject to audit by government agencies. While the ultimate liability, if any, from such audits of government and contracts by government agencies is presently not determinable, should not, in the opinion of management, have a material effect on the financial position or results of operations. Accordingly, no provision for any such liability that may result has been made in the accompanying financial statements.

### **13. Risk Management**

Losses arising from judgments, claims, and similar contingencies are paid through the state's self-insurance fund operated by the Office of Risk Management, the agency responsible for the state's risk management program, or by General Fund appropriation.

There is no pending litigation or claims against LETA at June 30, 2021, which if asserted, in the opinion of LETA's legal advisors, would have at least a reasonable probability of an unfavorable outcome or for which resolution would materially affect the financial statements.

### **14. Concentrations**

In the normal course of operations, the Foundation maintains cash deposits with major financial institutions which, from time to time, may exceed federally insured limits. Management periodically assesses the financial condition of the institutions and believes the risk of incurring material losses related to this credit risk is remote.

Included in receivables are amounts due from various entities for such items as underwriting agreements, educational services, and production services. Payment of these accounts is dependent upon the various entities' ability to fund their projects and programs.

LETA received general fund appropriations from the State of Louisiana totaling \$8,175,552 for the year ended June 30, 2021.

The Foundation received revenue totaling \$2,756,987 from the Corporation for Public Broadcasting and \$1,686,380 from the related party, Friends for Louisiana Public Broadcasting, during the year ended June 30, 2021.

### **15. Subsequent Events**

LETA evaluated subsequent events through November 1, 2021, which was the date the financial statements were available to be issued.

### Pension Plan

Changes of assumptions for LASERS by year are as follows:

Fiscal Year	Discount Rate	Investment Rate of Return	Inflation Rate	Projected Salary Increase	Remaining Service Lives
2021	7.55%	7.55%	2.30%	3.0% to 12.8%	2 years
2020	7.60%	7.60%	2.50%	3.2% to 13.0%	2 years
2019	7.65%	7.65%	2.75%	3.8% to 12.8%	3 years
2018	7.70%	7.70%	2.75%	3.8% to 12.8%	3 years
2017	7.75%	7.75%	3.00%	4.0% to 13.0%	3 years
2016	7.75%	7.75%	3.00%	4.0% to 13.0%	3 years
2015	7.75%	7.75%	3.00%	4.0% to 13.0%	3 years

Additional changes of benefit terms and assumptions include:

2015 – A 1.5% COLA, effective July 1, 2014, provided by Act 102 of the 2014 Louisiana Regular Legislative Session.

2017 – A 1.5% COLA, effective July 1, 2016, provided by Acts 93 and 512 of the 2016 Louisiana Regular Legislative Session.

2018 – Effective July 1, 2017, the LASERS board adopted a plan to gradually reduce the discount rate in 0.05% increments. Per Act 94 of 2016 the projected contribution requirements for the fiscal year ending June 30, 2019, include direct funding of administrative expenses, rather than a reduction in the assumed rate of return.

2020 – The LASERS termination, disability, and retirement assumptions and methods were updated based on experience study for the fiscal years July 1, 2013 through June 30, 2018

2021 – Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of LASERS' members for 2019 salary increases were projected based on a 2014-2018 experience study of the LASERS' members. The present value of future retirement benefits is based on benefits currently being paid by LASERS and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

### Other Post-Employment Benefits Plan

There are no assets accumulated in a trust that meets the requirements in paragraph 4 of GASB Statement 75 to pay related benefits and there are no benefit changes.

Changes in the discount rate by year are as follows:

Fiscal Year	Measurement Date	Discount Rate
2021	7/1/2020	2.66%
2020	7/1/2019	2.79%
2019	7/1/2018	2.98%
2018	7/1/2017	3.13%
2017	7/1/2016	2.71%

Additional changes of assumptions for the other post-employment benefits plan (“OPEB”) include:

2019 – (a) baseline per capita costs were updated to reflect 2018 claims and enrollment and retiree contributions were updated based on 2019 premiums. The impact of the High Cost Excise Tax was revisited, reflecting updated plan premiums; (b) Demographic assumptions were revised for the Louisiana State Police Retirement System, the Louisiana School Employees’ Retirement System, and the Teachers’ Retirement System of Louisiana to reflect recent experience studies. The mortality assumption for LASERS was updated from the RP-2014 Healthy Annuitant and Employee tables for males and females with generational projections using projection scale MP-2017 to the RP-2014 Healthy Annuitant and Employee tables for males and females using projection scale MP-2018; (c) the percentage of future retirees assumed to elect medical coverage was modified based on recent plan experience.

2020 – (a) baseline per capita costs were updated to reflect 2019 claims and enrollment and retiree contributions were updated based on 2020 premiums; (b) Life insurance contributions were updated to reflect 2020 premium schedules; (c) the impact of the High Cost Excise Tax was removed, and the High Cost Excise Tax was repealed in December 2019; (d) demographic assumptions were revised for LASERS to reflect the recent experience study.

2021 – (a) baseline per capita costs (PCCs) were updated to reflect 2020 claims and enrollment for the prescription drug costs and retiree contributions were updated based on 2021 premiums. 2020 medical claims and enrollment experience were reviewed but not included in the projection of expected 2021 plan costs. Due to the COVID-19 pandemic, plan administrators do not believe this experience is reflective of what we can expect in future years; (b) the salary scale assumptions were revised for the LASERS and the Teachers’ Retirement System of Louisiana; (c) medical participation rates, life participation rates, the age difference between future retirees and their spouses, Medicare eligibility rates, and medical plan election percentages have all been updated based on a review of OPEB experience from July 1, 2017 through June 30, 2020.

***Reports Required by  
Government Auditing Standards***

---

**Independent Auditor's Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards***

To the Board Members of the  
Louisiana Educational Television Authority  
Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, and each major fund, of the Louisiana Educational Television Authority, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Louisiana Educational Television Authority's basic financial statements, and have issued our report thereon dated November 1, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Louisiana Educational Television Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Louisiana Educational Television Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Louisiana Educational Television Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Louisiana Educational Television Authority financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

IN-KIND CONTRIBUTIONS (COMMODITIES)

Does your agency have any In-Kind Contributions (Commodities) to report? No

In-Kind contributions represent things of value donated or received by your agency from an outside source which would otherwise create an expenditure to the agency if the agency was required to purchase the goods or services from current resources.  
Examples:

- 1) pharmacy items donated to a state hospital from a pharmaceutical company,
- 2) food items donated to a state prison from the U.S. Department of Agriculture, or
- 3) donated fixed assets, recorded at fair market value and also recorded in general capital assets.

Do not include funds contributed by local governments or nonprofit organizations to provide program matching shares.

PREPAID EXPENSES AND ADVANCES

Does your agency have any of Prepaid Expenses and Advances to report? Yes

A. Prepaid Expenses

Certain items are commonly paid for in advance. Examples are insurance premiums and rent. Disclose the following prepaid expenses including postage.

With the implementation of GASB 65, Items Previously Reported as Assets and Liabilities, some of the amounts that were formerly recognized as prepaid expenses and advances may now be recognized as a deferred outflow. Do not report the amount qualifying as deferred outflows on this page. Report these amounts on the Items Previously Reported as Assets and Liabilities page. See the Appendix I for more information on deferred outflows.

SOFTWARE AND INTANGIBLES

Does your agency have any Software and Intangibles to report? No

A. Software recorded in InCircuit's Asset Management System

Computer software is not required to be recorded in InCircuit's Asset Management System (AMS); however, some entities use AMS for recording computer software. Computer software under OSRAP's threshold of \$1 million should not be considered part of the State's movable property. Provide the following for all computer software recorded in AMS with an acquisition cost between \$5,000 and \$1 million:

Software Name (as it Appears in AMS)	Asset # (from AMS)	Acquisition Cost
		0.00
	Total	\$0.00

B. Capitalized Software (Purchased or Internally Generated)

Provide the following:

- (1) List any purchased or licensed computer software with an acquisition cost of at least \$1,000,000 that is not recorded in AMS (Note: To prevent OSRAP from double counting, only list software meeting the \$1 million threshold that is not in AMS.) and
- (2) List any internally generated software that meets the capitalization threshold of \$1 million. This would be comprised of costs that fall under the application development stage, which include the design of the chosen path (software configuration and software interfaces), coding, installation to hardware, testing (including the parallel processing phase), and data conversion (only to the extent required to make the software operational). See OSRAP Memo 09-34 ([www.doa.louisiana.gov/OSRAP/library/memos/09/OSRAP0934.pdf](http://www.doa.louisiana.gov/OSRAP/library/memos/09/OSRAP0934.pdf)) for more information on internally generated software.

	\$0.00	0.00	0.00	0.00	\$0.00	
Total	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00	

C. Other Intangible Assets

Intangible assets also include water, timber, and mineral rights; trademarks, copyrights, easements, and patents.

Note: Do not include land use rights, such as water rights, timber rights, and mineral rights associated with property already owned by the entity. Do not separate the cost of the land rights from the cost of the land. The reported value of the land (reported at historical cost) already includes consideration for all rights associated with the entity's ownership and it should not be increased upon implementation of GASB Statement 51. Only report land rights (e.g. mineral rights) as an intangible asset if your entity owns the land rights, but not the land associated with it.

The beginning balance is the purchase price or acquisition price of any software that your agency is currently using that met the capitalization threshold when the software was placed in service. For the current year, this amount is prepopulated with information that has been submitted in the previous year's AFR. Additions include any new software that meets the threshold and is placed in service during the current year. Deletions include software that became obsolete in the current year or was no longer used this fiscal year.

UNEARNED REVENUE

Does your agency have Unearned Revenue to report? No

Unearned (formerly deferred) revenue represents revenue (generally federal) that was received in the current and/or prior fiscal year, but is not yet earned. Certain federal grants may fit this description; however, do not adjust revenues on Schedules 3, or 4 for unearned revenue, regardless of materiality.

Note: With the implementation of GASB 65, Items Previously Reported as Assets and Liabilities, some of the amounts that are formerly recognized as deferred revenue may now be recognized as a deferred inflow. Do not report the amount qualifying as deferred inflows in this note, instead, report these items in Note as Items Previously Reported as Assets and Liabilities. See Appendix I for more information on deferred inflows.

NONEXCHANGE FINANCIAL GUARANTEES (GASB 70)

Nonexchange financial guarantees are transactions in which the following occurs:

- 1. An entity guarantees an obligation of another legally separate entity or individual which requires the guarantor to indemnify a third-party obligation holder in the event that the entity or individual that issued the guaranteed obligation does not fulfill its requirements under the obligation; and
- 2. The entity extending the financial guarantee does not receive equal or approximately equal value in return.

For additional information on nonexchange financial guarantees, see OSRAP Memo 14-23 at <http://www.doa.louisiana.gov/OSRAP/library/memos/14/OSRAP1423.pdf>.

Question:

Does your agency have any nonexchange financial guarantees to disclose? No

If you select yes above, OSRAP will contact your agency at a later time to request additional information necessary for disclosing these guarantees in the CAFR.

Revenues - Pledged or Reported as a Sale

Does your agency have Pledged Revenues or Future Revenues to Report as a Sale? No

1. Pledged Revenues:

Pledged revenues are specific revenues that have been formally committed to directly collateralize or secure debt of the pledging government, or directly or indirectly collateralize or secure debt of the component unit.

Pledged revenues are revenue bonds that the State Bond Commission or Louisiana Public Facilities Authority has authorized in your agency's name or in your agency's behalf.

a. Identify the specific pledged revenue:

The specific pledged revenue is  
Debt amount secured by the pledged revenue \$ 0.00  
Approximate amount of the pledge (must equal to the remaining principal and interest requirements) \$ 0.00

b. Term of Commitment:

Number of years that the revenue will not be available for other purposes Beginning Date Ending Date

c. General purposes for the debt secured by the pledge:

d. Relationship of the pledged amount to the specific revenue:

e. Comparison of the current year pledged revenue information:

Principal requirements \$ 0.00  
Interest requirements \$ 0.00  
Pledged revenues collected during the period \$ 0.00

2. Future Revenues Reported as a Sale:

a. Identify the specific revenue sold:

Future revenues reported as sale are proceeds that an agency received in exchange for the rights to future cash flows from specific future revenues and for which the agency continuing involvement with those revenues or receivables is effectively terminated.  
The revenue sold is  
The approximate amount \$ 0.00  
Significant assumptions used in determining the amount

b. Period of the sale (month/year):

Beginning Date Ending Date

c. Relationship of the sold amount to the specific revenue:

RELATED PARTY TRANSACTIONS

Does your agency have Related Party Transactions to report? Yes

List all related party transactions as described in GASB 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* , paragraphs 54 through 57 including the nature of the relationship, the transactions, the dollar amount of the transactions and any amounts to or from which result from related party transactions.

Description	Amount
The Foundation, the component unit, was organized to support LETA, the primary government. For the year ended June 30, 2021, the Foundation provided financial support to LETA totaling \$1,742,171 with \$211,068 of that amount reported as a receivable by LETA and a payable by the Foundation.	1,742,171.00
Employees of LETA perform services for the Foundation for productions, programming, broadcasting and administrative services. In return, the Foundation reimburses LETA for the services performed by those personnel. These transactions are recorded as a reduction in salaries and related benefits in LETA's accounting records and as personnel expenses in the Foundation's accounting records. For the year ended June 30, 2021, the Foundation reimbursed LETA \$374,537 for personnel expenses.	374,537.00
When necessary, the Foundation pays invoices on behalf of LETA when LETA does not have the funds available. The Foundation reported \$26,101 due from LETA at June 30, 2021 for invoices on LETA's behalf.	26,101.00
The Foundation rents office space from LETA on a monthly basis. Rental revenue from the Foundation was \$8,292 for the year ended June 30, 2021.	8,292.00
Friends of Louisiana Public Broadcasting rents office space from LETA on a monthly basis. Rental revenue from Friends of Louisiana Public Broadcasting was \$30,377 for the year ended June 30, 2021.	30,377.00
The Foundation reimburses LETA for the use of LETA's production, programming and broadcasting equipment. For the year ended June 30, 2021, the Foundation's equipment rental expense was \$68,023. This balance was reported as rental revenue by LETA.	68,023.00

ON-BEHALF PAYMENTS FOR FRINGE BENEFITS AND SALARIES

Does your agency have On Behalf Payments for Fringe Benefits and Salaries to report? No

On-behalf payments for fringe benefits and salaries are direct payments made by one entity to a third-party recipient for the employees of another, legally separate entity. One of the two entities party to on-behalf payments for fringe benefits and salaries may be a non-governmental entity. On-behalf payments include pension plan contributions, employee health and life insurance premiums, and salary supplements or stipends.

1. Reporting  
a. Employer Entity

The amount of revenues recognized (received) during the year plus any receivables at year end by third-party recipients for the fiscal year is	0.00
The amount of expenditures/expenses when the employer entity is not legally obligated to make payments is recognized as the amount of revenues recognized. The amount of expenditures/expenses recognized for the fiscal year is	0.00
The amount of expenditures/expenses when the employer entity is legally obligated to make payments is recognized based on the accounting standards applicable to that type of transaction. For example, if contributions are made to a pension plan, the expenditure/expense should be recognized following pension accounting standards. The amount of expenditures/expenses recognized for the fiscal year is	0.00

b. Paying Entity

A paying entity would not recognize any revenues for on-behalf payments for fringe benefits.	
The amount of expenditures/expenses should be recognized in the same manner that the entity recognizes and classifies similar cash grants to other entities. The amount of expenditures/expenses recognized for fiscal year is	0.00

2. Disclosure

The following on-behalf payments that are contributions to a pension plan for which the agency is not legally responsible are:

ITEMS PREVIOUSLY REPORTED AS ASSETS AND LIABILITIES

Does your agency have Items Previously Reported as Assets and Liabilities to report? No

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. For example, certain situations involving non-exchange transactions and certain situations involving sales and intra-entity transfers of future revenues are not required to be reported as deferred.

**Example:** Assume that the agency received a \$ 1 million nonexchange grant in May 2017 (FY2017), which was received prior to the state date (or time requirement) of the grant, but after all eligibility requirements were met. That amount would be considered a deferred inflow and would be recorded as such for the 6/30/17 beginning balance on the note below. The following fiscal year (2017), the time requirement was met for the entire amount of the grant received May 2017 and the agency received another nonexchange grant in April 2017 for \$2.5 million, which was prior to the state date (or time requirement of the new grant), but after the eligibility requirements were met. The agency would report the following in the FY 2017 note provided below:

Deferred Inflows	Balance at PY Fiscal Year	Prior Period Adjustments	Restated Balance at PY Fiscal Year	Additions	Deletions	Balance at CY Fiscal Year
Grants received prior to meeting time requirements	\$1,000,000.00		\$1,000,000.00	\$2,500,000.00	\$1,000,000.00	\$2,500,000.00

**Note:** Prior to the implementation of GASB 65, the amounts above should have been recorded as unearned (deferred) revenue. Since grant amounts received prior to the time requirement are now considered deferred inflows instead of unearned revenue, do not report under unearned revenue. Refer to the Appendix I for more details on GASB Statement 65.

The Following Deferred Outflows and Deferred Inflows were recorded in the Current Fiscal Year

REVENUE SCHEDULES

Print your agency's Schedule 3 and Schedule 4 (as of 8/14) from BUNDL and review them to determine if adjustments are needed. Agency adjustments, meeting OSRAP's materiality guidelines, should be reported on the supplemental schedules within this section. Carefully read the information provided for Schedule 3 and Schedule 4 as provided and answer the question(s) that follow. Your answers determine which supplemental schedules are required for your agency. OSRAP's materiality guidelines are located in Appendix K.

Make sure to answer each question with Yes or No, then click on the 'Save' button to bring the applicable screen to view.

SCHEDULE OF APPROPRIATED REVENUE BY TYPE (4G32) - SCHEDULE 3

The Schedule of Appropriated Revenues by Type (Schedule 3) is a system generated schedule that presents agency appropriated revenues by activity. The information contained in the Schedule 3 is derived from ISIS and is intended to present fairly the appropriated revenues of your agency. Provided they meet OSRAP's materiality guidelines, adjustments should be reported for Schedule 3 Federal Aid and Self Generated Revenues ONLY.

(1) Does your agency have Schedule 3 adjustments meeting OSRAP's materiality guidelines (?) to report? These are adjustments that would be reported in Column VII on your Schedule 3. If no, skip question (2) and proceed to the next question.

No

(2) Of the Schedule 3 adjustments to be reported from question (1), was any of the cash received on or before June 30th?

(3) Revenues collected and classified between 7/1 and 8/14 are reported as accounts receivables in Column VI of your Schedule 3. If any portion of the total receivables in Column VI was collected at 6/30 and classified in the 13th period, accounts receivable must be adjusted. Did your agency have any cash receipts at 6/30 that were not recorded in ISIS until the 13th period?

Yes

SCHEDULE OF NONAPPROPRIATED REVENUES (4G33) - SCHEDULE 4

The Schedule of Nonappropriated Revenues by Type (Schedule 4) is a system generated schedule that presents nonappropriated revenues within an agency unit that is not available to finance operations. The information contained in the Schedule 4 is derived from ISIS and is intended to present fairly the appropriated revenues of your agency. Providing they meet OSRAP's materiality guidelines, adjustments should be reported for Schedule 4 when applicable.

(4) Does your agency have Schedule 4 adjustments that meet OSRAP's materiality guidelines (?) to report?

No

(5) Revenues collected and classified between 7/1 and 8/14 are reported as accounts receivables in Column VII of your Schedule 4. If any portion of the total receivables in Column VII was collected at 6/30 and classified in the 13th period, accounts receivable must be adjusted. Did your agency have any cash receipts at 6/30 that were not recorded in ISIS until the 13th peiod?

No

(6) The Department of Public Safety reports the collections of taxes from the sales of motor vehicles on their Schedule 4. DPS should be the only agency reporting motor vehicle sales taxes on their Schedule 4. To ensure that all motor vehicle sales taxes are reported, check the box adjacent to this question if your agency's Schedule 4 DOES include motor vehicle sales tax revenue AND your agency is NOT one of the agencies within the Office of Motor Vehicles.

GASB 77 - TAX ABATEMENTS

Tax abatements are widely used by state and local governments to encourage economic development. GASB 77 focuses on the amount of tax revenue that is not collected as a result of tax abatement agreements, and is aimed at informing the public about how these tax abatements affect governments.

GASB 77 requires disclosure of tax abatement for (1) a reporting government's own tax abatement agreements and (2) those that are entered into by other governments that reduce the reporting government's tax revenues.

For more information on GASB 77, see OSRAP Memo# 17-23 and AFR Packets, Appendix J on OSRAP's website.

PROJECT PARTNERSHIP AGREEMENTS - UNITED STATES ARMY CORP OF ENGINEERS (USACE)

A Project Partnership Agreement (PPA) is a legally binding agreement between the Federal Government and a non-Federal sponsor (state, municipal government, flood control district, port authority, etc.) for construction of a water resources project. It describes the project and the responsibilities of the Federal Government and the non-Federal sponsor in the cost sharing and execution of work. These agreements have had various names over time, including Local Cooperation Agreements and Project Cooperation Agreements.

Does your agency have any project partnerships agreements with USACE? No

DEPARTMENT OF INSURANCE

A. STATUTORY DEPOSITS

According to Louisiana Revised Statutes 22:801-809, 22:435, 22:1651(1), and 22:1701, a security deposit or surety bond is required of all insurers doing business in Louisiana. Deposits are made with a bank doing business in Louisiana and appropriate receipts must be provided to the Commissioner of Insurance. The following were pledged to the Commissioner of Insurance at June 30, 20CFY:

Bank Deposits	0.00
Surety Bonds	0.00

According to Louisiana Revised Statute 22:804, certain foreign admitted insurers, in lieu of pledging a deposit to the Commissioner of Insurance, may provide evidence of a deposit (held for all policyholders/creditors) in its "home" state. The following were reported to the Commissioner of Insurance at June 30, 20CFY:

"Home" State Deposits	0.00
-----------------------	------

According to Louisiana Revised Statutes 22:333(C) and 22:435, certain insurers must deposit funds in a trust pledged for the benefit of all policyholders/creditors. The enactment of the federal Non-admitted and Reinsurance Reform Act of 2010 (Dodd-Frank Act) during fiscal year 2012 has eliminated the Louisiana state requirement for surplus lines carriers, provided that they have met all requirements of their home state. The following were reported to the Commissioner of Insurance at June, 20CFY:

Trust Receipts	0.00
----------------	------

B. THIRD PARTY ADMINISTRATORS

According to Louisiana Revised Statute 22:1651(I)(1), a security deposit or surety bond is required of all third party administrators ("TPA") doing business in Louisiana. Deposits are made with a bank doing business in Louisiana and appropriate receipts must be provided to the Commissioner of Insurance. The following was pledged to the Commissioner of Insurance at June 30, 20CFY:

Bank Deposits / Surety Bonds	0.00
------------------------------	------

C. PUBLIC ADJUSTERS

According to Louisiana Revised Statute 22:1701, prior to the issuance of a license as a public adjuster and for the duration of the license, the applicant shall secure evidence of financial responsibility in the format prescribed by the Commissioner of Insurance through a security bond or irrevocable letter of credit. The following was pledged to the Commissioner of Insurance at June 30, 20CFY:

Surety Bonds	0.00
--------------	------

D. INSURE LOUISIANA INCENTIVE PROGRAM

According to Louisiana Revised Statutes 22:2361-2370, the grant participants are required to provide securities to the Commissioner of Insurance equal to the unearned portion of their grants. The following was pledged to the Commissioner of Insurance as June 30, 20CFY:

Matching Capital Insurer Funds	0.00

1. Complete the schedule below, to assist OSRAP in determining the reason for the change in financial position for the state. Explain the reason for the change, if the revenues or expenditures are more than **\$10 million** from the previous year's figure.

	CFY	PFY	Difference*	Change
Revenues (a)	1,727,894.13	1,995,005.47	\$(267,111.34)	(13.39)
Expenditures (b)	8,527,221.13	9,652,154.41	\$(1,124,933.28)	(11.65)

Explanation for change:

- (a) Revenues must equal the following:  
Total revenue on Schedule 3 or Schedule 3-1, if prepared  
+ Full current year accrual revenues on Schedule 14A  
- Full prior year accrual revenues on Schedule 14A  
+ CFY Payroll Federal revenue accrual  
- PFY Payroll Federal revenue accrual
- (b) Expenditures must agree with  
Total expenditures on Schedule 1 or Schedule 3-1, if prepared  
**plus** Full current year accrual expenditures on Schedule 14B  
**less** Full prior year accrual expenditures on Schedule 14B  
**plus** CFY payroll accrual, using the first payroll date of the next fiscal year  
**less** PFY payroll accrual

**\*If the difference is under \$10 million you do not have to proceed with this section.**

2. Complete both schedules below, to assist OSRAP in determining the reason for the changes in the budget. Explain the reason for the change, if the difference is more than **\$10 million**.
